iXwater ecofilter

iX ION for coffee equipment

Improve the quality and taste of your coffee and hot beverages whilst being more ECO friendly. The iX ION 01 and 02 (Ion Exchange), save you money and keep you green. Specially formulated media insert to reduce scale and provide superior taste, aroma and crema for outstanding results.

The ix Ion head has a variable bypass to allow some untreated water to be dialled back into the water supply, which is essential for better coffee extraction and taste.

IX ION
