

# THE SCALE CONTROL ALLIANCE

Water is potentially the biggest cause of equipment failure across the foodservice industry in Coffee Machines, Combination Ovens, Steamers and all equipment heating water.

The Scale Control Alliance currently comprises of four leading UK companies, who have extensive knowledge of water related issues and how they impact on the catering industry. We have the expertise to deliver you a straight forward solution to the problem that does not cost the earth, either financially or environmentally.

#### Our Promise:

- To give you quality treated water to protect your equipment
- To give you peace of mind that comes with a scale free guarantee
- To give you fast, efficient, friendly service
- To deliver an environmentally friendly solution
- To solve your scale related problems
- To save you money
