WATERCARE

CTU Prima, engineered for the perfect coffee

Our range of Prima Calcium Treatment Units are specially formulated for use with espresso machines and coffee making equipment.

Get the most from your coffee machine. Not only will the drinks taste fresher, but the machine will also be protected from the harmful effects of lime-scale, ensuring maximum coffee flavour for a perfect coffee experience.

The perfect alternative to single-use plastic water filters, the CTU can be regenerated, recycled and returned to market making it a genuinely green filter providing not only protection for your equipment, but protecting the environment and keeping our oceans and landfill free from plastic.

Available in 5, 10, 18, 23 and 30 litre capacities.

15% blended head for improved taste and coffee extraction

The Prima CTU takes out most of the harmful elements whilst retaining some of the minerals that enhance the aromas and tastes of the coffee. Designed with a blended head to further improve the taste and quality of the coffee on offer.

Features & Benefits

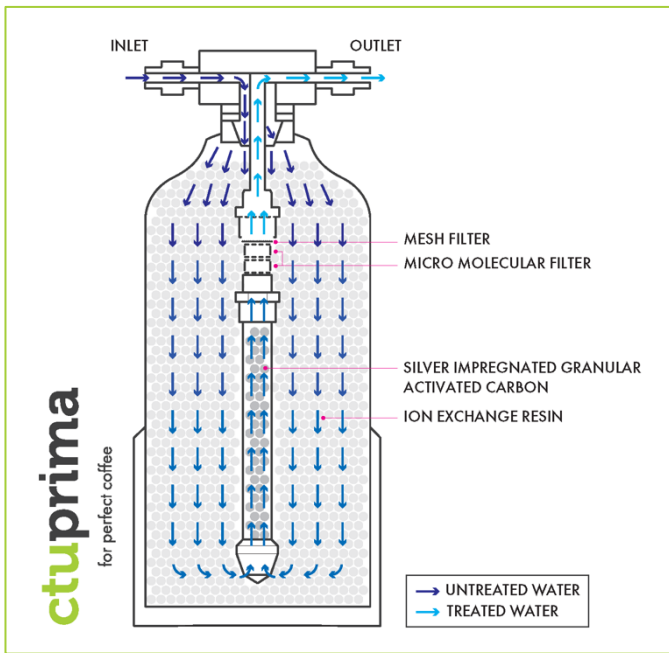

- Engineered for the perfect coffee
- Exceptional capacities across the range
- WRAS Approved
- Simple installation
