iX Cartridge - What's in the Box?

- iX Water Cartridge Filter
- iX Refill Insert (located inside the filter)

iX Head - What's in the Box?

- Head
- Bypass Tool (attached)
- Head Top plate (attached)
- AA Batteries (only applicable on Digital Metered Head)
- Water Testing Strips

*iX Head is required on all iX Cartridge installations

How to Install

1. Remove the iX Cartridge filter from the box and position the unit in the required area for installation.
2. Remove the iX Head from the box and attach to the top of the iX Cartridge Filter.
3. Connect your fittings to both Inlet and Outlet*
*Fitting and adapters are available depending on site requirements.
4. Flush the filter for a minimum of 20 litres for the 01 and 35 litres for the 02
5. Follow the instructions shown on the Water Testing Strips to determine the water hardness.
6. Remove lid from head and set bypass based on the water hardness following the water hardness test, using the green bypass tool provided (push mounted to front of head). **This is only applicable to the iX Ion.**
7. Insert the AA Batteries to start up the Digital Water Meter (Automatically set to 0). **This is only applicable to the Digital Meter Heads.**
8. Place lid back onto head.
9. Place Bypass tool back into the front of the iX Head.
10. Turn on water supply.

iX Refill Replacement - What's in the Box?

- iX Refill Insert
- 2 Spanners
- O Rings
- Base Grip Adapter

How to Exchange Refill Replacement

1. Turn off the water supply to the filter
2. Remove the green bypass tool provided (push mounted to front of the head).
3. Detach Filter from head.
4. Use the green spanners and Base Grip Adapter provided to undo the Filter.
5. Remove old and drain.
6. Insert for new refill.
7. Fit the Base Grip Adapter to the bottom of the Filter and place the Spanner underneath.
8. Place one foot on the spanner. This will enable you to tighten the screw cap back onto the Filter.
9. Re-fit Filter back onto the head.
10. Replace Bypass tool into the front of the filter.
11. Turn on the water supply and flush the filter for a minimum of 20 litres for the 01 and 35 litres for the 02.
12. Set Bypass if needed/as required using the green bypass tool. **This is only applicable to the iX Ion.**
13. Push and hold the Reset button for 5 seconds to reset the Digital Water Meter to 0. **This is only applicable to the Digital Meter Heads.**

After initial install, you have the option to replace the complete filter cartridge or just the refill insert.

REPLACE

RETURN

RECYCLE

When you order your replacement Media Insert Refill, you'll also have the option to receive a free recycling kit consisting of a sealable, watertight bag and return instructions. This makes returning your expired cartridges to us as simple as possible and will no doubt comply with your own environmental policies.

Variable Head Capacities (iX Ion Only)

iX Ion - Filter head with 1 - 4 Variable Bypass
