

iX Water quick release head

Designed for ease of maintenance. The iX Water head has an optional digital flow meter so you can see at a glance the volume of water that the filter has treated. This advancement now means you can be sure of great quality water at all times as filters can be changed with accuracy rather than on an estimated time period.

Variable blend head for coffee applications

The head has a variable bypass* to allow some untreated water to be dialled back into the water supply which is essential for better coffee extraction and taste. An integral adjustment tool is included and clips to the head to allow the variable bypass to be adjusted easily.

*To only be used on the iX Ion. All other variants must be set to 0.

Features & Benefits

- Suitable for all filters in the iX Water range
- Optional digital flow meter for accurate exchanges
- Variable bypass* with bypass tool, for taste and extraction
- Simple Installation
- Easy set up and installation
- BSP or PF fittings available
- 100% Recyclable
- Made in Britain

*Variable bypass is to be used with the iX Ion only.

Part Descriptions & Codes

iX Water Filter Specifications	
Flow Rate (Lpm)	7
Min Pressure	1.5 bar
Max Pressure	6 bar
Max Temperature (°C)	35
Connections	3/8" PF or 3/8" BSP
Operating Position	Vertical

Description	Code
IX HEAD WITH 3/8" PUSH FITTINGS INLET AND OUTLET	IXHEAD-3/8DM-V2
IX HEAD WITH 3/8" PUSH FITTINGS INLET AND OUTLET WITH DIGITAL METER	IXHEAD-3/8DM-DIGI-V2
IX HEAD WITH 3/8" BSP FITTINGS INLET AND OUTLET	IXHEAD-3/8BSP-V2
IX HEAD WITH 3/8" BSP FITTINGS INLET AND OUTLET WITH DIGITAL METER	IXHEAD-3/8BSP-DIGI-V2
